ACCOMPLISHMENTS

- As CTO managed annual IT budgets over \$10,000,000.
- Over 25 years of physical and virtual security experience.
- IT & InfoSec consulting, audits, and systems administration for Fortune 100 & 500 listed companies networks with over 10,000 users.
- Corporate Systems & Components Architect for multinational infrastructure supporting over 4,500 users in over 50 countries.
- Designed and personally built entire IT infrastructure and department staffing from scratch for multiple companies.
- Built and provided mission-critical infrastructure and services to county hospital, clinic, and related medical facilities.
- Directly supervised over 20 employees, supervised through hierarchy over 50 employees & contractors.
- Hired/contracted and managed multiple offshore teams in India and U.K.
- Personally built over 10,000 retail custom systems, supervised teams of technicians building more than 50,000 retail custom systems.
- Extensive experience with most technology platforms, audits, incident handling, pen-testing, policies, security training for employees, and other InfoSec aspects.
- Designed, staffed, trained, implemented, and transitioned multiple InfoSec corporate divisions from scratch, including "Red Teams".
- Use of extensive array of permissions control mechanisms including single sign on (SSO) and many different directory services and authentication mechanisms including: ADS, LDAP, YP, Intranetware & Netware, Kerberos, NT Domains, OAuth, Auth0, and many others.
- Certified in 2002 as GCIH (GIAC Certified Incident Handler) through SANS Institute, my research still published on their website ^①
- Google Chrome OS / Chromebook developers cited my security research for key technology decisions regarding VPNs.
- Rebuilt "bulletproof" 2600 IRC in 2002.
- Working with technology systems since 1979.

EMPLOYMENT SUMMARY

2016-17 – Zombie Orpheus Entertainment
2002-16 - IT & InfoSec Consulting - Dev 2 Dev Portal LLC ^②
2004-16 - Consultant - Hawke Enterprising d.b.a. ^③
2004-16 – Founder & Facilitator - Spokane 2600 ^④
2014-16 – Research Primary Investigator RPG Therapeutics LLC ^⑤
2006-16 – Founder & PI – RPG Research ^⑥
2011-16 - Founder – Spokane Music Therapy.com ^⑦
2008-16 - Founder - Inland Empire Tolkien Society ^⑧
2005-16 - Founder – TolkienMoot/MerpCon conventions ^⑨
2005-16 - Founder, Editor, Publisher – Other Minds Magazine ^⑩
2015 – Contracted InfoSec Incident Handler – NBC Packaging USA ^⑪

2010-12 – Sys & Net Engineer – Interlink Advantage ¹²
 2008-12 - Founder & Host – Middle-earth Talk Show ¹³
 2008-12 - Founder – Middle-earth Radio ¹⁴

 1997 - Network and Systems Administrator – Comspec Corporation - goo.gl/7V5ILU
 1997 – QA, Junior Developer, Java & Visual Basic – SoftDocs Inc. - www.softdocs.com
 1996-08 - Admin, Developer, DBA – Alpentech Inc. - www.alpentech.net
 1996-97 - Head Systems & Networks Tech & Developer – PC Easy - goo.gl/xHsY0F
 1996 - Netware, Wang, & WFWG Admin, UCC/Broadview Univ broadviewuniversity.edu
 1995-96 - Assistant Network Admin – Teltrust Inc. Directory Services - goo.gl/bKPIOM

1992-95 – Bus. & Res. Sec. Mgr & SysAdmin – Villa Franche & Laurelwood Prop., UT.
1988-90 - Security and computer systems support – Brittainny Apartments, Murray, UT.
1979-94 – Independent and contracted software developer, Utah.
1979, 1983-87 – Surveyor, Lumberjack, Construction - Lost Packer Mining Co., Idaho.

TECHNICAL EDUCATION

- 2002 - SANS GCIH - giac.org/certified-professional/hawke-robinson/103605 – Security & Incident Handling Certification from SANS Institute, my research report on virtual private networking technologies and Microsoft's PPTP VPN vulnerabilities, published online at the SANS/GIAC Institute at: <https://www.sans.org/security-resources/malwarefaq/pptp-vpn>
- 2003 – SCSAp1 – Sun Certified Systems Administrator (part 1).
- 1996-1998 - Associates Degree in Computer Science (GPA 4.0), Certified Careers Institute, SLC, UT.
- 1999 - MCSE - Microsoft Certified Systems Engineer
- 1998 - MCP+I – Microsoft Certified Professional + Internet
- 1998 - CNA - Certified Netware Administrator

ADVANCED TRAINING & RELATED EXPERIENCE RELATED TO THE FOLLOWING CERTIFICATIONS

- NCLE – Novell Certified Linux Engineer
- CNI – Certified Novell Instructor
- SCSA – Sun Certified Solaris Administrator
- SCJP – Sun Certified Programmer for Java 2

ADDITIONAL ADVANCED MISCELLANEOUS TECHNICAL TRAINING

- SilverStream development and administration 1.x, 2x, 3x
- BroadVision performance tuning, architecture, design, development and administration 2.x, 3.x, 4.x, & 5.x
- Java Programmer 1x & 2
- Jini
- ACS (Arsdigita Community System) 3x & 4x
- TCL
- Java
- XML
- Oracle 8i Application development
- Oracle 8i Installation, Configuration, and Administration
- Oracle 9 Application Development
- Oracle 9 Installation, Configuration, and Administration

OTHER EDUCATION/TRAINING

- 2004-Current – Eastern Washington University, B.A. Recreation Therapy, Music Therapy, Research Psychology, and Neuroscience (Current GPA 3.7).
- 2015 - Mental Health First Aid Certification.
- 2014 – HIV/AIDS Certification.
- 1999-2000 - Franklin Covey - Project Management (extends "What Matters Most" & "Seven Habits").
- 1994 & 2007 - Landmark Education Forum and Forum in Action Seminar Series.
- Utah Valley State College Environmental Technology Certificate 1994.

- 1991-1992 - SLCC Graphics Design & Photography.
- 1988-1989 - SLCC Automotive Technician Program.
- 1994 – 4x Certified ASE - Automotive Service Excellence in Computer & Electrical Systems
- 1989 – PT5S CMAT – Precision Tune Five Star Certified Master Auto Technician (specialties in automotive computers, engine performance & electrical systems)

MARTIAL ARTS

- 2004-2011, Kung Fu For Life, Spokane, WA.
- 2006, Goju Ryu Karate, Bruce McDavis, EWU, Cheney, WA.
- 2000-2002, Buk Sing Choy Lay Fut Kung Fu, Fremont, CA.
- 1984-1986, Chung Shing Kung fu, SLC, UT.
- 1974-1980, 2000-2002 Aikido, Bay Area, CA.
- 1974-1983, 1987-1989, Shaolin Kung Fu, Oakland, CA.

LANGUAGES TRAINING

- American Sign Language Summer 2006 and 2007 (Eastern Washington University), and ongoing as facilitator of www.SpokaneASL.com
- Chinese – 2008 Mandarin Chinese I (SFCC)
- Russian: 1986-1987 (school), 1994-1995 (private instructor).
- Finnish – 1994 (self instruction - tapes & books).
- Cantonese 1991-1993 (private instructors).
- Japanese: 1989-1991 (private instructor).
- Spanish: 1983-1986 (school).

PROFESSIONAL MEMBERSHIP

- 2600 Lifetime membership since 2002 – www.2600.com
- 2014-2016 - American Therapeutic Recreation Association – atra-online.com
- 2014-2016 – Washington State Therapeutic Recreation Assoc. - www.wstra.org
- 2016 – Pacific Northwest American Therapeutic Rec. Assoc. - www.pnwatra.org
- 2000-2004 - Information Systems Security Association (ISSA)
- 1998-2003 - IEEE – Institute of Electrical & Electronics Engineers
- 1998-2003 - PMI – Project Management International

Excellent references provided upon request.

EMPLOYMENT DETAILS

November 2016 through June 2017

Architect, Chief Technology Officer, & Systems Administrator

Zombie Orpheus Entertainment – www.zombieorpheus.com

2822 Valencia St, Bellingham, WA 982263750

Supervisor: Ben Dobyns, President.

Using entirely open source complex applications servers, combined together to build a robust and feature rich community interactive multimedia platform supporting many movie and video series partners, and their fan base. Primary focus was providing rich community infrastructure for on-demand streaming video services with hierarchical access control to content and services based on Patreon payment levels.

Technologies used:

Apache, Tomcat, Asimba, SAML, CAS, LDAP, SASL, Plone 5, MySQL, MariaDB, MongoDB, NodeBB, Discourse, Kaltura CE, Red5 Server, Gluu, Shibboleth, OAuth, OAuth, OAuth RP, Auth0, oxTrust, pas.plugins.ldap, Luma (LDAP Browser), CentOS 7.2, Ubuntu 14.04 LTS, Ubuntu 16.04 LTS, OpenSuse 13.2, Python, Ruby, PHP, Java, NodeBB and many authentication associated plugins, MediaWiki and authentication associated plugins, Gluu authentication server, Wordpress and many authentication associated plugins. Note, worked mostly as architect, systems administrator, and technology consultant, most of the custom coding was handled as needed through a number of task-specific coding contracts. In consulting with business staff, created scope documents, R&D with various technologies, until found the ideal match to the business needs. Company was going to spend over \$250,000 trying to custom build platform, but using an array of open source existing technologies, was able to implement for less than \$10,000. Platform State 1 launched June 6th, 2017 without any complications.

2002-2016**IT & Information Security Consulting, Systems Administration, and Internet services, California, Idaho, Oklahoma, & Utah.**

Dev 2 Dev Portal LLC – www.dev2dev.com

1432 W Lawrence Dr.

Spokane, WA, 99218, USA

Phone: (509)481-5437 (old # Bay Area California:408-516-9887 Toll Free:800-887-0176)

For clients outside Washington state, various hosting, consulting, and administration services for a wide range of technologies, environments, and industries. Some clients are still under NDA and not listed, others listed throughout this document. Auditing, InfoSec “Red Team” and other security testing methods, information security audits, systems and network performance audits, eCommerce, Open Source products, Web servers, database servers, networking, firewalls, provide training, establish policies and procedures with documentation and training for technical staff, core infrastructure builds from ground up, and transitional migrations of small and enterprise size networks and systems. Implement procedures and technology for compliance with government and corporate mandates.

Technologies, Methodologies, and Standards Used: Linux (Redhat Enterprise, CentOS, Fedora, Suse Enterprise, OpenSuse, Ubuntu, Gentoo), OpenBSD 3.x/4.x, Mac OSX, Solaris 7/8/9/10, OpenSolaris, Windows 3x/Wfwg/NT/2000/XP/CE/PPC, Web servers (Apache 1x & 2x, Tux), Community/portal servers (geeklog, phpnuke, postnuke), Content Management Servers (CMS) (Zope, Plone 2x/3x/4x/5x), various Application Servers, Redhat Interchange eCommerce, Database Servers (Oracle 8x/9x, MySQL, MariaDB, PostGreSQL), Java, PHP, Perl, C, Python, Netbeans / Forte, rsync, ntpd, sshd, vsftpd, snmpd, daemontools, bind / dns, smtp & pop3, qmail, postfix, qmailadmin, ezmlm/ezmlm-idx, vpopmail, vqadmin, Zope, Plone, Discourse, NodeBB, Gluu, Shibboleth, Single Sign On (SSO), Kaltura, spamassassin, qmail-scanner, rbls and many various uce/spam/backscatter reduction measures, Antivirus (ClamAV, Symantec, McAfee, AVG, qmail-scanner), Cisco DSL, T1 & 802.11a/b “wifi” enterprise equipment & software, Nagios & MRTG, Hughes Networks Satellite Internet business services (stationary). VoIP over “wifi”. IRC Servers & Services (hybrid, hybserv, eggdrop, mirc, xchat, hexchaty), iptables & pf, Wells Fargo Merchant Services, Verisign merchant services, Pffpro (Payflow Pro),Open Office, Nmap, nessus, snort, aircrack-ng, kismet, netstumbler, ethereal, etherape, tripwire,

rkhunter, denyhosts, iptables, ipchains, fail2ban, and scores of other InfoSec tools, Health Insurance Portability & Accountability Act (HIPAA) compliance audits and compliance implementation, Payment Card Industry (PCI) standards audits and compliance implementation, National Institute of Standards & Technology (NIST) audits and compliance implementation.

Additional lengthy detailed Skills and Technologies Used List:

CIO/CTO/CSO, President, SysAdmin, NetAdmin, Webmaster, Wireless Technician

MaladNet Wireless Internet Services Provider d.b.a. - goo.gl/ksbeBy (Dev 2 Dev Portal LLC services)

17 Bannock St.

Malad, ID, 83252, USA

Provided broadband wireless Internet services to entire valley in 8 mile by 12 mile coverage area. Provided services to home users, businesses, government, and medical facilities. Provided up to T1 service to each location. Full traffic usage tracking and reporting, filtered content and email upon request, bandwidth shaping, fail-over connections, website hosting and design, support services. Trained multiple installation and support technicians. Supported over 100 users per tower at peak with reliable high speed access. Included mission-critical services for medical clinics and hospitals.

Designed and custom manufactured completely self-supported solar-and-wind-powered wireless Internet tower systems providing connectivity, relay/repeater, and full monitoring of voltage, temperature, traffic, and physical intrusion detection and motion activated video all on solar powered/battery operated system on mountainside.

Temperature/climate controlled units designed and modified to withstand winters with several feet of snow and temperatures below -20f and summers over +112f (shade) and over 140f (radiant).

Notable Business clients

- 2002-03 - Consultant – Hess Lumber - www.malad.com/community/hesslumber.htm
- 2003 - Albert's Automotive
- 2003-2004 - Malad Valley Clinic
- 2003-2004 - Grant Heilesen Properties
- 2003 - The Circuit Gym
- 2003 - BK Pumice – www.hesspumice.com

Colo servers at Hurricane Electric, Xmission, Oklahoma, and our own dedicated server farm (built from scratch), in Malad City Idaho, later with additional servers in Idaho Falls, ID.

Cisco, T1, UUnet, WorldCom, Albion Telephone Company (ATC), SNMP, Etherape, tcpdump, nmap, IRC, hybserv, hybrid.

Java, PHP, Python, and Perl programming

MySQL and PostGreSQL databases

Novell eDirectory, , Apache, SSL, MRTG, SNMP, SMTP, POP3, Qmail, Tripwire, iptables, pf, etherreal, etherape, various other IDS technologies (not disclosed), CuSeeMe client and reflectors for full audio/video conferencing with full duplex multi-user simultaneous meetings, PPTP and IPsec VPNs, PostNuke, PHPNuke, Zope, Jserv, Tomcat

RADIUS, Kerberos, LDAP, BIND, DNS, SMTP, Single Sign On (SSO), LEAP, 802.1x, MAC and IP access control

Servers: Linux Redhat, Debian Linux, OpenBSD, Trusted Solaris 6 & 7.

Supported user platforms: Windows 3.x/9x/Me/NT/w2k/XP, Mac OS 8x/9x/Xx, Linux (several distros), Solaris 6/7/8/9

802.11b & g and 802.11a 2.4 ghz and 5 ghz wireless.

Cisco Aironet Aps and bridges (3x0 and 1x00 series), 3Com, Intel, D-link, Hyperlink, Fab-corp, Linksys, and many other wireless companies' technologies for clients, bridges, and Aps.

Amplifiers, high gain antennae (sector, omni, pad, and parabolic), LMR 400 and 240 custom coax and fittings.

2002-2004

Consultant, Systems Administrator, Network Administrator, Wireless Internet Provider

Contract

Oneida County Hospital – Announcement:

<https://web.archive.org/web/20030326000548/http://www.oneidahospital.com/> -

www.oneidacountyhospital.com

150 N 200 W

Malad City, ID, 83252, USA

(208) 766-2231, FAX 208-766-4819

Provided broadband wireless services to help improve implementation of their imaging systems link with other hospitals and facilities. Helped as consultant in conjunction with their systems and network administrators to rectify internal LAN/WAN issues beyond the scope of the hospital's administrator skills.

Over time Oneida County Hospital decided to move it's entire ISP service from ATC (Albion Telephone Company) to Dev 2 Dev Portal LLC's MaladNet Internet Services in March 2003. In so doing, Dev 2 Dev Portal LLC helped provide and train Oneida County Hospital staff in setting up and training their technical staff to use the new domain and website. Owned by the people of Oneida County, Oneida County Hospital and Long Term Care Facility provides emergency, inpatient, outpatient, acute and long-term care since 1925

Other technologies used: OpenBSD, Linux, Kerberos, LDAP, BIND, DNS, SMTP, Single Sign On (SSO), POP3, SSL, and many others.

2003, September

Information Security Guest Instructor/Speaker

Bridgerland Applied Technology College goo.gl/1DFVpE / Now Davis Applied Technology College www.datc.edu

550 East 300 South

Kaysville, UT 84037

Phone: (801) 546-2441

Previously Logan, Utah

Invited (out of the blue, by referrals from others) as a guest speaker for several hours in duration, lecture on Redhat, Linux, & Open source versus Windows 2000 & XP, and the pros and cons of open source vs. closed source approaches, products, and Information Security.

2002, April to 2003, March.

Systems & Network Administrator, Consultant & Support Technician

Contract

Dev 2 Dev Portal LLC Client

Valley Insurance Inc.

60a Bannock St.

Malad, Idaho, 83252

208-766-4700

Provided simple systems administration and support for their small 3 windows 98 systems network.

2002, April through August.

Administrator, Developer, DBA, Webmaster

Contract

Dev 2 Dev Portal LLC Client

Creative Earth LLC - <https://goo.gl/Hc98QN> - www.creativearthonline.com

Malad, Idaho, 83252

Neil Martin (Owner)

Setup and administrate website and e-commerce shopping cart system for client using Apache, Postnuke PHP Server, MySQL, Redhat Interchange, Solaris 8, Java 2, PERL, HTML, & SQL.

Worked with client to create completely template driven new version of site that client could update themselves, rather than being dependent upon technical and development personnel to simply update site content.

New template-based version of site launched June 2002. Previous version was a very poorly designed static HTML site. Creative Earth Herb & Perennial Farm L.L.C. is a small, family owned and operated, wholesale/retail botanical farm located in Southeastern Idaho.

2002, August to December.

Systems Auditor, Analyst, Consultant

Contract

Dev 2 Dev Portal LLC Client

Devon Energy Corporation

Oklahoma, Texas, Wyoming, & Canada

Supervisor: Stephen Taylor (Now At Chesapeake Energy)

www.dvn.com

Devon Energy is a large USA-based energy and oil company. The project was titled "Data Services Division Performance Audit and Recommendations". I gathered extensive data and performed in depth research on Solaris, Windows and related application servers to optimize systems for maximum performance, security, and

reliability. **Audited**, researched, and produced recommendations on **over 160 servers** in three states and two countries. Testing and production implementations covered:

- Solaris 6,7,& 8.
- Windows NT Server
- Windows 2000 Server
- IIS web server
- Apache web server
- ESSBASE
- Brio
- PEEP
- Oracle 8 & 9
- MS SQL Server 2000
- LDAP
- LDAP iPlanet 5x
- Kerberos
- ADS
- YP/NIS+
- Windows Domains

2000, September to 2002, February.

CTO - Chief Technical Officer/CSO - Chief Security Officer

Salaried Employee

September 2000 – February 2002

MightyWords Inc. (A division “spin-off” from Fatbrain)

Santa Clara, California

goo.gl/mueAYR - www.mightywords.com (acquired by Barnes & Noble).

Personally implemented complete V.O.W. (Virtual Office & Workplace) including VPN, audio & video conferencing, application sharing, and later handed off to Operation Team when those positions were finally filled.

Built entire technical infrastructure (servers, network, workstations, printers, firewalls, Internet connectivity, email, software, etc) from scratch. Successfully implemented complete wireless (“secured”) LAN and wireless mobile user (“road warrior”) infrastructure keeping our sales, technical and executive staff well connected, with up to date information, and easy, constant access to resources.

As CTO, created from the ground up an entire Technical Department. Department size averaged around 15 regular employees plus 10-20 outsourced, offshore, and contracted personnel as needed. Direct reports included: interim Development Director, Project Manager, Technical Operations Director, Support Manager, Data manager, Security Manager, Research & Development, Technical Writers, Java Developers, DBAs, Systems & Network Administrators, QA Engineering, UI, and Security Administrators. Took over as Development Director in addition to maintaining CTO position, after previous Director left company (due to H1b complications). Managed the creation, development and successful deployment of an industry revolutionary DRM (Digital Rights Management) client and server technology. This technology is becoming the preferred DRM for Barnes & Noble .com, Fatbrain, Sparks Notes, iUniverse and many others to supplement and even replace Adobe & Microsoft’s DRM technologies. Implemented complete site integration with partner sites including (but not limited to): Barnes & Noble, Fatbrain, Lightning Source / Amazon, Internet.com, DevX.

Was key part of leading development team to create an industry revolutionizing DRM technology, that became in demand by Barnes & Noble (.com) family companies, Fatbrain, & Microsoft publishing (to name just a few), because of it's superior flexibility and low customer support ratio, compared to other leading (Adobe, Glassbook, MS) DRM technologies.

Managed team of developers and administrators running a content management, e-Commerce, and co-branding system handling over 50,000 DRM managed PDF documents for sale, 100,000+ supporting images, over 150 distribution partner sites & over 5,000 content providers.

Worked regularly with Barnes & Noble, Fatbrain, and other partners on many content management & ecommerce related projects.

Architected & administrated many "N-tier" environments on different scales as fit traffic and uptime requirements.

The experience listing below is not listed as keywords or "buzzwords", but indicate real world working experience. I designed, purchased, and configured the systems listed, as well as worked with contractors, and later transitioned them to other employees as I hired them to fill the pre-planned positions, all under budget, and ahead of project schedule.

Equipment, OS, & Software hands on design, installation, and administration included: Sun e220r (20+ systems), A1000 (4), D1000 (4), E450 (1), Ultra 10 (25+), Netscreen 10 VA Linux systems (20+), Cisco Catalyst 19xx series, Dell 1400 series servers, PPTP, IPSEC, Veritas, Cybersource, Solaris 7, Oracle 8.1.6 & 8.1.7, MySQL, Postgresql, ACS, (Arsdigita Community System & CMS), Aolserver, Tomcat 3, Apache, CVS, Bugzilla, MS SQL 2000, Exchange 2000 (Exchange/Outlook, IMAP, POP, SMTP), ADS, MS Windows 2000 Advanced Server, MS Project 2000 & MS Project 2000 Central Server, Redhat, Mandrake & VA Linux 6.2 through 7.2, Qmail, Ipchains, Poptop Server, SMB, Cupsd, Mixed user environment of Linux & Windows 2000 Pro desktops & laptops, CDPD (AT&T Wireless & Verizon Wireless), Ricochet services (until their demise), Optistreams & Hughes Satellite Internet Satellite services (1.8Mbps down, 90Kbps up completely landline free system), Spread spectrum wireless T1, LDAP, BIND, DNS, SMTP, Single Sign On (SSO), DRM.

2000 – Consultant, Webfusion Developer – Franklin Covey – www.franklincovey.com

2000 – Senior Principal – Technology Solutions Corporation (TSC)

2000 – Analyst/Architect – Internet Shopping Network – goo.gl/Liywqp of www.hsn.com

2000 – Corporate Systems Architect and Analyst – Franklin Covey – www.franklincovey.com

Architect, design, & assist in implementation of development, staging, QA, and production environments for eCommerce, online Planning, Online Training, Device Synchronization, colo & hosting providers, as well as other services.

Worked in key roles developing the Franklin Covey Online Training program.

Designed entire architecture & documentation for complete implementation plan, purchased & installed hardware and software, configured, documented, and detailed ongoing maintenance and growth plans for project to complete after finishing my contract term. <http://www.fclearningcenter.com/>

Hardware included: e4500's, e420r's, e220r's, e450's, Ultra 10's, x86 multi cpu systems (for Linux), BigIP + SSL, Cabletron SSR2000, SSR8000, Nokia 650 VPN/Firewall, A1000 RAID arrays, and many other components.

Software included: Solaris 2.7, Windows 2000 Server, Redhat 6.2, Allaire JRUN 3, Allaire ColdFusion 4.51 for NT, Coldfusion for Solaris, Kerberos, LDAP, BIND, DNS, SMTP, Single Sign On (SSO), Oracle 8i, IIS, Apache, Visual Source Safe, Rational Clear Quest, qmail, ssl, Fusion one synchronization services.

Clemens Mechanical
October/November 2007
Completely convert entire company infrastructure from Windows-based to Mac OSX based.

Steelhead Specialty Minerals
August to October 2007
Perform systems performance and security audit on Windows XP based infrastructure.

Administrator/Developer/DBA/Support Technician
Dev 2 Dev Portal LLC Client
December 1996 – 2008
Alpentech Inc.
2871 South 2870 East
Salt Lake City, Utah, 84109
Beat VonAllmen (Owner)
www.alpentech.net

Setup and administrate website and e-commerce shopping cart system for client using Apache, ACS (Arsdigita Community System), MySQL, PostgreSQL, Oracle 8.17, Redhat Interchange, Java, PERL, HTML, SQL & PLSQL, PhpNuke, PostNuke, & Zope.

Worked with Wells Fargo Bank Merchant Services division to setup and deliver “real-time” credit card authorization and full featured shopping cart and CRM.

Alpentech Inc. designs mountain resorts around the world including: Park City, Snowbird, Alta, Brighton, Solitude, Snow Basin, and many others. Alpentech also sells maps and posters, and now sells online to consumers, dealers, and special partners via this newly enriched site.

Note: I have provided various technical services and support for this client since 1996 when he first became a PC Easy customer, and he has insisted on my help ever since, he has tried others to help him when I’m not available, but he always opts for me when I’m available.

Providing hosting services for DNS, SMTP, POP, SSL, Redhat Interchange, Apache, Wells Fargo & Verisign Merchant services, real time credit card authorization and other related services.

Administrator/Developer/DBA/Support Technician

Independent Contractor

August 1995 – (2005)

Color Signs & Graphics

(Formerly Colorificsigns LLC formerly Colortops)

2885 West 1000 North

Malad City, Idaho, 83252

Kent Christen (Owner)

www.colorsignsandgraphics.com

Setup and administrate website and e-commerce shopping cart system for client using Apache, ACS (Arsdigita Community System), MySQL, PostgreSQL, Oracle 8.17, Redhat Interchange, Java, PERL, HTML, SQL & PLSQL, PhpNuke, PostNuke, Zope.

Setup multiple custom payment options (purchase orders, automatic billed accounts, etc). Colorificsigns LLC creates and distributes banners, “toppers”, and custom signs for retail outlets, convenience stores and gas stations all over the US. Some clients include: Flying J, Holiday Oil, Western Union, and many others.

The new site enables clients to make complete catalog orders online with a wide variety of pricing structures (bulk, special partner discounts, etc).

Providing hosting services for DNS, SMTP, POP, SSL, Redhat Interchange, Apache, and related services.

Security, Systems, Wireless & Wired Network Consulting

Dev 2 Dev Portal LLC Client

August 2003 – February 2004

Axxess.net www.axxess.net -
<https://web.archive.org/web/20031027022256/http://www.axxess.net/>
Idaho

Audited and verified systems compromise of Linux and windows servers. Completely overhauled entire ISP's infrastructure at Idaho Falls location. Replaced all servers with OpenBSD and full hardening. Setup monitoring, graphing, and alert systems. Setup IDS (Intrusion Detection Systems) using various opensource applications.

Services setup/overhauled included: DNS, SMTP, POP3, Qmail, IMAP, LDAP, SSH, SSL, HTTP/HTTPS, FTP, SFTP, spam filtering, nat, routing, firewall, etc.

Products included (just a brief overview): Apache, postfix, spamassassin, tripwire, pf, mrtg, OpenBSD & RedHat, Visio Enterprise, Kivio, OpenOffice.
900 Mhz wireless.

Consultant

Dev 2 Dev Portal LLC Client

May 2003 – September 2003

www.veridex.us

Michigan, Oregon, & Idaho

Consultant and offered CTO position (I declined) to completely scope out, architect and design, and build working prototype from scratch. Community-centric portal using forums, score rankings, voting logic, and other complex implementations to provide scoring for the integrity of publicly traded companies.

Technologies used included:

Java, PHP, and Python programming

Apache, SSL, MySQL, SMTP, POP3, LDAP, Qmail and MRTG.

PHPNuke, PostNuke, Zope, Redhat Interchange

Visio Enterprise, Kivio, OpenOffice.

Consultant, Systems and network support technician

Dev 2 Dev Portal LLC Client
Hess Lumber March 2002 - December 2003
<http://www.malad.com/community/hesslumber.htm>
Idaho

Provided technical support for tcp/ip network, ISP services, and Windows XP systems.

Consultant for networking, systems, security, and wireless advising and training
Dev 2 Dev Portal LLC Client
Hess Pumice
www.hesspumice.com
August – December 2003

Provided training, design, and general consultation in their efforts to upgrade and overhaul their network and systems, as well as an initiative to provide wireless broadband to their employees over several miles distances on point to point basis.

Complete overhaul/upgrade of systems from NT/w2k based network to standardize on OpenBSD, Linux, and Windows NT.

Security audit and advising on security best practices, policies, and technologies.

Technologies covered included:

Windows NT, W2k, XP, OpenBSD, Mac, & Linux

IIS, Apache, PHPNuke, PostNuke, Zope, OWA

MS Exchange, Postfix, Sendmail, Qmail

Visio Enterprise, Kivio, OpenOffice.

802.11b/g and 802.11a training provision and security best practices.

IPSec VPNs and hardware/vendor VPNs (Cisco).

Cisco 3x0 and 1x00 Aps and Bridges.

Various IDS technologies (not disclosed)

Instructor & Systems Administrator
Dev 2 Dev Portal LLC Business Division
April 2002 – June 2003
The Computer Schools
Malad, Idaho, 83252
www.thecomputerschools.com

Provide technical instructional services to local adult students.

Provide technical support, systems administration, website design, hosting, administration, email services, and more.

Administrator/Developer/DBA
Dev 2 Dev Portal LLC Client
April 2002 - August 2002
Platinum Mortgage Group
Salt Lake City, Utah, 84109
Karl Christen (Employee)
www.pfmortgages.com

Setup and administered dynamic template driven website using Apache, Postnuke Server, Redhat 7.2, Solaris 7, MySQL, Java, PERL, HTML, PHP, & SQL.

Helped client register domain, setup website, dns, email server, accounts, template driven website that client can handle their own content updates.

Worked with client to created complex mortgage calculation and tracking system.
Developed dynamic intranet for employees.
Completed version of site will launch sometime in October 2002.

Administrator/Developer/DBA
Dev 2 Dev Portal LLC Client
May to June 2002
Malad Football Booster Club
Malad, Idaho, 83252
www.maladfootball.com

Setup and administrate website and online catalog system for client using Apache, Postnuke PHP Server, MySQL, Redhat Interchange, Solaris 8, Java 2, PERL, HTML, & SQL.

Worked with client to create completely template driven version of site that client could update themselves, rather than being dependent upon technical and development personnel to simply update site content.

Instructor

www.franklincovey.com/fclearning/

www.fclearningcenter.com/

Architect, design, & assist in implementation of development, staging, QA, and production environments for eCommerce, online Planning, Online Training, Device Synchronization, colo & hosting providers, as well as other services.

Worked in key roles developing the Franklin Covey Online Training program.

Designed entire architecture & documentation for complete implementation plan, purchased & installed hardware and software, configured, documented, and detailed ongoing maintenance and growth plans for project to complete after finishing my contract term. <http://www.fclearningcenter.com/>

Hardware included: e4500's, e420r's, e220r's, e450's, Ultra 10's, x86 multi cpu systems (for Linux), BigIP + SSL, Cabletron SSR2000, SSR8000, Nokia 650 VPN/Firewall, A1000 RAID arrays, and many other components.

Software included: Solaris 2.7, Windows 2000 Server, Redhat 6.2, Allaire JRUN 3, Allaire ColdFusion 4.51 for NT, Coldfusion for Solaris, Oracle 8i, IIS, Apache, Visual Source Safe, Rational Clear Quest, qmail, ssl, Fusion one synchronization services.

Senior Principle

Technology Solutions Corporation

July 2000

Salt Lake City, Utah

Chicago, IL

Atlanta, GA

San Francisco, CA

TSC, an organization specializing in the implementation of large-scale ERP, Supply Chain, and CRM implementations. Hired as "Senior Principle" (vice president in training) for technology consulting division. Worked from Salt Lake City, UT home remotely 80% of the time with maximum 20% travel per month to corporate offices elsewhere. Publicly traded company provided technology consulting services to Fortune 1000 and 500 clients. Released after 2 weeks due to failing background check from activities back in 1989 as a teenager, their HR department had not finished the check when they made the offer of employment, and the department did not feel their stock holders would tolerate a VP with such a background. Had accepted this position instead of offers from IBM and SBC/PacBell who had completed background checks before making offers and did not have any issues.

Systems Architect & Technology Consultant

Independent Contractor

Contract: July 2000

Contract: Home Shopping Network's Internet Shopping Network (isn.com) (c/o RE-Solutions Group)

www.isn.com

Assist in finalizing implementation of moving entire live production BroadVision 2.5 server environment to new physical location from it's existing location of over 3 years, with minimal downtime (From Sunnyvale, CA area to Irvine, CA area).

Environment included e5000, e4500's, e4000's, e450's, 220r's & 420r's, Ultra5's. Solaris 2.5.1 & 2.6

Oracle 7.3.4
BroadVision (highly customized bvconf executable, using no interaction managers) 2.5.1 & 2.6
A total of more than 50+ servers successfully moved before deadline and under budget.

Systems Architect and Technology Consultant

Independent Contractor

Contract: May 2000

Home Shopping Network's Internet Shopping Network (isn.com)

c/o RE-Solutions Group

www.isn.com

Troubleshoot analyze and suggest solutions for moving entire live production BroadVision 2.5 shopping cart server environment to new physical location from it's existing location of over 3 years, with minimal downtime (8 hour drive for equipment).

Environment included e4000's, e450's, 220r's & 440r's.

Solaris 2.5.1 & 2.6

Oracle 7.3.4

BroadVision (highly customized bvconf executable, using no interaction managers) 2.5.1 & 2.6

Corporate Systems & Components Architect

Director of Operations for E-Commerce Division

Security Administrator for E-Commerce Division

Senior Systems Administrator for E-Commerce Division for Solaris, Linux, NT, W2k, Netware, Oracle 8i, ColdFusion, & BroadVision

Salaried Employee

May 1999 – July 2000

Franklin Covey

(Electronic Solutions Division)

Salt Lake City, Utah

[www.fclearningcenter.com/ -](http://www.fclearningcenter.com/)

<https://web.archive.org/web/20060218032344/http://fclearningcenter.com/>

www.franklinplanner.com

Propose, design, and create revolutionary uses of leading edge technology and/or methodologies to be adopted throughout entire corporation. Designed solutions for project business plans, including costs, security, reliability, usability, and marketing.

Broadvision Server/Development Environment analysis, design, setup, maintain, performance tuning, and work with dozens of team members using Broadvision 4.x in both development and production environments.

Systems design, ordering, implementation and administration of Solaris, Linux, NT/2000 E-Commerce (& other services) servers and Oracle and MS SQL Databases

QOS agreements with average uptime requirements of 99.5% to 99.95% uptime per year for development environments and 99.995% uptime for production sites, networks, & systems

Troubleshoot system and network LAN/WAN/Intranet issues.

Develop, implement, program, and maintain customer support procedures, apps, systems & databases. Research, analyze, report, and recommend various technology products.

Recent examples include: Netware 5.1, NDS 8, Netware Single Sign On, Solaris 8, Coldfusion on NT/Linux/Solaris and conversion, Broadvision 4.0 & 4.1 connecting to Oracle 8i, hosting facilities evaluation (Qwest, Intel, TelUS, USI, Abovenet, Xmission, Infomission, and others), Jini, online education programs at Sun and other sites, high capacity (1,000,000+ /day) email services and products, and more.

As Director of Operations for Electronic Solutions Division, built independent infrastructure for 80 users/employees, created independent corporate Information Security team.

As Corporate Systems & Components Architect performed detailed analysis of significantly diverse and non-integrated infrastructure, and provided redesign, planning, and implementation for multinational infrastructure supporting over 4,500 users in over 50 countries.

Research, recommend, design, test, implement, and administrate corporate-wide video conferencing solutions. Research, recommend, design, test, and implement complete Virtual Office & Workplace (VOW) work at home solution. Research, recommend, design, test, and implement complete Wireless Internet solution in conjunction with VOW initiative.

Research, inspect, consult with various hosting companies across US & Canada, and recommend best providers dependent on project needs and business scope.

Create, follow, and enforce project methodologies, plans, and timelines.

Contribute to budget creation and conformance.

Used the following applications and operating systems regularly:
